### Biofuels International Canada Expo and Conference September 28-29 Calgary, Canada

When it comes to biofuels markets, Canada and the US could not be more different. The US market grew quickly and as a result created an environment of overcapacity where some producers struggled to survive.

In contrast the market in Canada is fairly nascent, yet it enjoys exceptionally high public and government support. This gives Canada the perfect opportunity to learn from the US and ensure the industry grows into a thriving and successful industry.

The event brings together producers, regulators and investors to discuss how best to meet these goals and support the market's continued development. and conference topics include a clear explanation of the Federal Renewable Fuels Regulations, influences from the US regulatory environment, A case study of how ethanol can be produced from cellulosic ethanol, information on future feedstock options such as algae, how facilities can secure the necessary finance and investment to grow and develop, the importance of plant design, how to ensure final fuel quality, and how to integrate biofuels into the supply chain. ### 9th International Biogas Conference November 23-24 London, UK

The 9th International Biogas networking conference from Green Power Conferences aims to help biogas developers, farmers, investors and operators obtain hands-on knowledge to ensure not only a successful project but also profitable revenue. Learn best practice case studies from government representatives, biogas producers, utilities and biogas users to gain a clear understanding of:

- current policy framework
- investment criteria
- project start up requirements
- plant optimisation
- upgrading biogas for injection into gas grids.

The new UK Coalition Government's plan for a low carbon economy provides significant opportunities for the biogas sector. Biogas UK will focus on practical information about biogas development and operations including sessions on regulation, investment and technical project development skills.
