

## Global Business America Highlights Advanced Biofuels USA in Planet Green Section

**For Immediate Release,** December 22, 2016: Frederick, Maryland -- Global Business America, part of Global Business Publishing, highlighted Advanced Biofuels USA's study of the feasibility of an energy beet project for the Eastern Shore of Maryland and Delmarva Peninsula with a photo-packed spread in the [Planet Green portion](#) of it's English edition.

Global Business is published in three languages (English, Spanish & Portuguese) and has readers across the country and from around the world. Their business 2 business digital publications are read by corporate clients, industry professionals and research groups who stem from a variety of industries including: Construction, Manufacturing, Supply Chain & Logistics, Technology, Public sector, Food & Beverage, Health Care and more.

"Advanced Biofuels USA was pleased that the editors were interested in this project knowing that it will be of interest to their readers, and reached out to us for information. In a world where information provided to people usually relates to topics that they have previously clicked on or researched, this provides an opportunity to reach an audience that might not know a lot about sustainable, renewable transportation fuels," said Advanced Biofuels USA executive director, Joanne Ivancic.

"Advanced Biofuels USA, as a nonprofit educational organization, provides easy-to-access information on its website, [www.AdvancedBiofuelsUSA.org](http://www.AdvancedBiofuelsUSA.org), for industry professionals as well as for those new to the subject. We are pleased to have this opportunity to introduce our organization to a, perhaps new, audience," she continued. [READ MORE](#)

*Advanced Biofuels USA, a nonprofit educational organization advocates for the adoption of advanced biofuels as an energy security, military flexibility, economic development and climate change mitigation/pollution control solution. Our key tool is our web site, [www.AdvancedBiofuelsUSA.org](http://www.AdvancedBiofuelsUSA.org), a resource for everyone from opinion-leaders, decision-makers and legislators to industry professionals, investors, feedstock growers and researchers; as well as journalists, teachers and students. In addition, we prepare technology and policy assessments, brief government staff, participate in conferences, lecture, and provide general assistance to those interested in advanced biofuels. Technology neutral and feedstock and product agnostic, Advanced Biofuels USA's work is respected around the world.*
