Future Activities: Come See Us!

We will be covering the occasional events related to biofuels. Look for us!

Joanne Ivancic Will Be Speaking at the Congressional Hispanic Caucus Institute in September

The Congressional Hispanic Caucus Institute convenes thousands of leaders and influencers during its signature 2018 Leadership Conference September 11-12 for critical discussions, networking and recognition of Latino accomplishments. The theme of "Here to Lead: Architects of Our Destiny" focuses thousands of engaged individuals from a wide range of sectors and industries to examine critical areas affecting the Latino community and the nation.

They will examine what it takes to be a transformative leader and the challenges facing the community in 2018 and beyond including the future of biofuels in discussions of how we can work together to inspire positive social, economic and political change.

The biofuels panel, hosted by Congressman Bill Flores (R-TX 17th) will be moderated by Manuel Quinones of E&E News and includes Advanced Biofuels USA executive Director, **Joanne Ivancic**, Brooke Coleman of the Advanced Biofuels Business Council and a representative of the American Fuel & Petrochemical Manufacturers. Bill Keba Will Cover the Biochar and Torrefied Biomass Short Course October 24-25, 2018, at Penn State

Organized by Penn State Extension and the Penn State Biomass Energy Center, with generous support from the Northeast Sun Grant program, this entry in a series of short courses will include presentations, tours, networking, and discussion to cover the scientific, technical, and project development principles of biochar and torrefied biomass production and use.

Bill Keba will be there representing Advanced Biofuels USA and gathering insights for an up-coming article. Let him know your thoughts about biochar as a biofuels and bioenergy production co-product. [READ MORE](#)

Meet with Lais Thomaz at the 18th International Sugar and Ethanol Conference in São Paulo, Brazil

Advanced Biofuels USA board member **Lais Thomaz** will be attending the first day, October 29, of the International Sugar and Ethanol Conference in São Paulo, one of the major events in the global sugar and ethanol schedule with a focus on rendering value to market content, spreading knowledge of new technologies and public policies, as well as encouraging the networking between participants.

Not only will Thomaz write about the insights she gains at this event, she will be gathering the latest information to also share with her International Relations students at University of Goiás. [READ MORE](#)

Meet ChrisTindal at the 2018 CAAFI Biennial General Meeting and ASCENT Symposium, too.

Find **Chris Tindal**, as Assistant Director and Business Team Lead for the Commercial Aviation Alternative Fuels Initiative, at the organization's biennial general meeting in Washington, DC, December 4-6.

The meeting will feature presentations and discussions of results from this year's pending ICAO CAEP and Assembly meetings, progress on, or analysis of, the next Farm Bill, mid-term election results and implications, and the maturation of several

commercial activities. Plenary sessions will address all aspects of alternative jet fuel supply chain development and deployment. The Aviation Sustainability CENTER (ASCENT) of Excellence will use the meeting as an opportunity to share alternative jet fuel research and progress. [READ MORE](#)

Thermal & Catalytic Sciences Symposium (TCS) 2018 – October 8-10, 2018 — Auburn University, Alabama

Auburn University is hosting the 2018 edition of the Thermal and Catalytic Sciences Symposium, October 8 – 10, 2018. Called TCS 2018, the event focuses on thermochemical biomass research and development and providing early career scientists and engineers an opportunity to present their research and interact with the senior researchers in the community.

Iowa State University's Bioeconomy Institute (BEI) held the first installment of the symposium in 2010 and co-hosted the event in 2014 with the National Renewable Energy Laboratory. RTI International hosted the event in 2016.

Topics to be covered at the symposium include biomass gasification and gas clean up, biomass gas to liquid, pyrolysis and upgrading, solvent liquefaction, and sugars via thermal deconstruction of cellulosic biomass. Other areas to be addressed are co-products upgrading and utilization, lignin utilization, biomass preprocessing and pretreatment, and techno-economic analysis, life cycle analysis and policy analysis.

The Thermal and Catalytic Sciences Symposium has been held every other year following the first symposium held in 2010 at Iowa State University with the goal of focusing on thermochemical biomass research and development and providing

early career scientists and engineers an opportunity to present their research and interact with the senior researchers in the community. [READ MORE](#)

10th PALMEX Indonesia 2018 — October 9-11, 2018 — North Sumatera, Medan, Indonesia

The 10th PALMEX Indonesia 2018 is the only specialized Palm Oil event in Asia that brings together an international congregation of both upstream and downstream palm oil companies and also its supporting industries gathered in the capital city of North Sumatera, Medan to showcase the latest developments in the palm oil industry.

North Sumatera, home to one of Indonesia's largest concentration of oil palm plantations and also the presence of many supporting facilities such as palm oil processing plants making its capital Medan the perfect venue for the show. This unique event seeks to educate the public on the importance of the palm oil industry in Indonesia and the future trends of palm oil in the region. More than 7,000 industry professionals from more than 10 countries would be expected to turn up at this event. The international character and regional audience of PALMEX Indonesia 2018 provides unparalleled marketing, education and networking opportunities. [READ MORE](#)

VENICE2018 – 7th International Symposium on Energy from Biomass and Waste — October 15-18, 2018 — Venice, Italy

The production of energy from alternative sources and its impact on climate change are among the main strategic tools implicated in the sustainable development of our society. Numerous types of biomass and wastes contribute towards the production of energy and reduction in the use of fossil fuels by means of biological, chemical and thermal processes. Existing biomass and waste to energy technologies are currently undergoing rapid development. Despite growing interest in the use of these technologies, in many countries their implementation remains limited.

The aim of the Venice 2018 Symposium is to focus on the advances made in the application of technologies for energy recovery from biomass and waste and to encourage discussion in these fields. The previous edition of the Symposium, held in 2016, was attended by over 500 scientists and operators from approximately 57 different countries.

The seventh edition of the Symposium will feature:

- Three days of scientific presentations
- One day of guided technical tours at biochemical and thermochemical plants
- Six parallel oral sessions, poster sessions and an exhibition by companies working in the field

- Expected attendance of over 600 delegates from tens of different countries worldwide [READ MORE](#)

The logo for the 'Future of Biogas Europe 2018' conference. It features the text 'Future of Biogas Europe 2018' in a green, serif font, set against a background of a blurred image of yellow flowers. The text is arranged in four lines: 'Future of', 'Biogas Europe', '2018', and a small '2018' at the bottom.

Future of Biogas Europe 2018

The two day event will bring together senior executives and experts from the full value chain to provide a forum for all parties active in the field of anaerobic degradation of organic matter and renewable energy production in the form of biogas. Power producers, technology providers, agricultural sector, food and beverage industry, waste industry and leading technology and solution providers are all impacted by the development of Biogas. The conference will provide a forum to discuss the latest challenges and developments making an impact on the industry.

Join us in London to participate in interactive sessions & panel discussions with expert speakers sharing knowledge and experience and engage in excellent networking opportunities.

2018 CAAFI General Meeting and ASCENT Symposium — December 4-6, 2018 — Washington, DC

The CAAFI Biennial General Meeting is an excellent opportunity for CAAFI stakeholders and leaders alike to experience the momentum of the alternative aviation fuel market, which continues to develop and mature every year. CAAFI scheduled its General Meeting for December of this year to allow for the presentation and discussion of results from this year's pending ICAO CAEP and Assembly meetings, progress on, or analysis of, the next Farm Bill, mid-term election results and implications, and the maturation of several commercial activities. Plenary sessions will address all aspects of alternative jet fuel supply chain development and deployment.

The 2018 CAAFI Biennial General Meeting will also include a special partnership with the Aviation Sustainability CENTER (ASCENT) of Excellence, which will use the Meeting as an opportunity to share alternative jet fuel research and progress with the broader CAAFI community. We welcome ASCENT's partnership and look forward to their presentations!

The CAAFI team welcomes your participation in our Biennial General Meeting! [READ MORE](#)
