New Format for Advanced Biofuels USA Newsletter

Advanced Biofuels USA Splits Newsletter into Two Parts: Conference Calendar and Events; and News and Happenings

To help you find what you need when you need it, we've introduced a new format for the Advanced Biofuels USA monthly newsletter.

The **Conference Calendar** (this part of the newsletter), a chronological listing of biofuels-related conferences around the world, along with announcements of speaking, presenting and poster opportunities will provide a quick view of events.

This section of the newsletter will also include information about Advanced Biofuels USA's presence at up-coming events.

The **News and Happenings Newsletter** will provide information about advanced biofuels policy development, recent articles about federal legislation, litigation and regulations; and about Advanced Biofuels USA activities, policy papers, press releases, statements and original articles.

New educational resources will also get the spotlight in this section of the newsletter.

The **Conference Calendar** and **News and Happenings Newsletter** will be archived on our website NEWS page, <http://advancedbiofuelsusa.info/news/>, so you can check back for information at any time.

We hope this will better serve your needs and keep you informed about events, policies, resources and opportunities.

Please let us know what you think about these changes; and suggest others, too.
Call 301-644-1395 or send an email to [info @ AdvancedBiofuelsUSA.org](mailto:info@AdvancedBiofuelsUSA.org).

Come See Us!

Let's Talk About It: Biofuels — 2015 Summer Mondays: July 27 and August 31 — Frederick, MD

and part of the library's "Let's Talk about the guided discussion will cover questions like: What are Biofuels? How make them? How do we use them? Are good idea? Will they really help us to renewables from fossil fuels? What about sustainability?

Advanced Biofuels USA executive director, **Joanne Ivancic**, will present a 3-part discussion series based on selected scholarly readings, at the Frederick County Public Library in Frederick, Maryland. If you missed part one in June or part two in July, don't worry. A quick review will start the August session.

Open to the public, "It" series, do we they a transition

They will explore feedstock options, learn about conversion technologies and discuss current local, regional, federal and international policy initiatives.

Ivancic will include information about various STEAM (Science, Technology, Engineering, Agriculture, Math) jobs and careers available to those interested in renewable fuels. Her presentation, along with the outline and suggested readings, is available online in the Biofuels Basics section of the Advanced Biofuels USA website. [READ MORE](#)

Stefaniya Becking Will Cover the 15TH International DATAGRO Conference on Sugar & Ethanol September 21-22, 2015 São Paulo, Brazil

We are happy to announce that Stefaniya Backing will be traveling to Brazil to represent Advanced Biofuels USA at the DATAGRO Conference on Sugar & Ethanol in September. Watch for an article with her insights.

If you are attending this conference and would like to speak with Becking, let us know at 301-644-1395 or email info @

AdvancedBiofuelsUSA.org and we'll make arrangements; or contact the DATAGRO media liaison at the conference. [READ MORE](#)

Visit with Advanced Biofuels USA at the Keystone Farm Show--The Farm Show for Farmers

Advanced Biofuels USA's **Joanne Ivancic, Bob Kozak** and **Peggy Alpert** will again staff an information booth at the key mid-Atlantic "Farm Show for Farmers" in York, Pennsylvania this January.

Free admission tickets are available for the asking at info @

AdvancedBiofuelsUSA.org; or give us a call at 301-644-1395.

Thanks to the show organizers' generosity in donating booth space to us, we always come away with valuable insights from touring the show and having conversations with visitors to our booth; insights and information that inform our writing, presentations and educational presentations.

We look forward to seeing you there! [READ MORE](#)

1st Annual Methane Bioengineering Summit — September 1, 2015 — San Diego, CA

Policy, regulatory and environmental drivers — including impact of EPA's designation of methane as an advanced cellulosic biofuel
Latest insights on methane production, utility and market economics

Sustainability as a market driver
State of the art methanotroph biology
Commercial applications and markets
Building the methane research community

Methane from natural gas is emerging as a low-cost, widely available feedstock. Researchers throughout the world are discovering new uses for this high potential sustainable source of energy. Join the conversation about practical, scalable solutions to today's food and energy challenges. Be part of the first annual global Methane Bioengineering Summit, happening this September in San Diego, co-located with the Sustainable Chemicals & Plastics Adoption & Applications Summit.

Green Chemistry – 2015 September 14-16 FL

Green Chemistry-2015 takes immense pleasure to invite you all to be a part of this meeting which will focus on current trends and emerging issues in Green Chemistry. This OMICS Group International Conference desideratum is to render an intriguing forum and vibrant opportunity for researchers to share their original research results and practical experiences, at the same time absorb knowledge from works being done around the nooks of world. Apart from researchers, professors, biopharmaceutical industry practitioners, private and public investors, and students are also most welcome to get themselves inbuilt to the rays of novel happenings on Green Chemistry-2015 around the globe. The whole concept of this advanced technology is to agendize from past, analyze the present and implement for the future the latest innovative evolving theories and technologies to surpass the hurdles and make modish frontiers.

The major objective of the conference is to emphasize the importance of Green Chemistry, explore recent advancements, and research by making room to experts and researchers from around the globe. [READ MORE](#)

15TH International DATAGRO Conference on Sugar & Ethanol September 21-22, 2015 São Paulo, Brazil

Besides being the official technical event of the Sugar and Ethanol Dinner in Sao Paulo, and in the celebration of the 15th anniversary of the International DATAGRO Conference on Sugar & Ethanol, DATAGRO reinforces its commitment of bringing together key leaders and representatives of the entire chain of the international sugar & ethanol industries to discuss market issues and sectorial strategies. The focus will be to continue

to value the quality content, disseminate knowledge and new technologies, and stimulate the networking between participants.

In October 2014, the International Conference was attended by more than 650 participants, from 33 countries, 49 speakers and more than 70 supporting companies, which together shared their experiences in two days on how to overcome challenges and seize the opportunities available in the Brazilian and International markets.

8th Biofuels International Conference September 22-24, 2015 Porto, Portugal

This year's event is in association with biodiesel production equipment specialist IncBio. The company supplies biodiesel plants across Europe, incorporating some of the most advanced and efficient technologies in the world. On day one of the event delegates will get a chance to see this for themselves.

Day two and three will take a closer look at the issues affecting the market including biofuels policy, international biofuels trading, sustainability, solutions for first generation producers, progress in advanced biofuels and information on feedstock pricing and trends. [READ MORE](#)

The Australian Bioenergy and Bioproducts Symposium (TABBS): Realising the Bioeconomy – It's Hot in the Tropics! — October 12, 2015 — Brisbane, Australia

TABBS provides an excellent platform to ensure that the Bioeconomy is recognised as a key opportunity on economic development. Approximately 40% of the world's population live in the Tropics; and globally, we are experiencing increasing demand for solutions that provide environmentally sustainable and healthy living conditions. How will we feed and fuel the world as the population rises and resources decrease?

In Queensland, and throughout the Tropics, businesses and research organisations have developed specialist skills and expertise to leverage the opportunities for Bioenergy and Bioproducts that the Tropics offer. Companies, investors, researchers, and policy makers must work to realise the full potential of the Tropical Bioeconomy, along with the opportunities and threats we are posed with, in order to

sustainably develop and transition innovations from research to market and address global issues in an environmental, social and economical context.

Just as the Federal Government is developing a Northern Australia Strategy, TABBS 2015 will bring together key international industry stakeholders to explore the Bioeconomy in the Tropics – Bioenergy and Bioproducts markets, trends, products and innovations on a global scale. TABBS 2015 will further investigate issues and opportunities around supply and demand, sustainability and industry regulation.

Global Agribusiness Forum March 2016

The Global Agribusiness Forum (GAF), held every two years, is internationally recognized as the most important event of the agribusiness in the world. By encouraging debates between the most important leaders, authorities and specialists of the agribusiness, the event has been the platform to identify solutions for the challenges and

opportunities for the agriculture and livestock across the globe.

In its last edition, the global agriculture and livestock chain was officially represented by 1,100 leaders and authorities from 43 countries, 129 partner organizations, which included the private sector, governments, associations, entities, universities, non-governmental organizations and communication vehicles. The GAF counted with the official support of the governments of Brazil, European Community, Canada, Cuba, France, Turkey, Singapore and the state governments of Manitoba, Ontario and Sao Paulo. With live transmission by Canal Rural and internet, GAF was watched by 36,000 spectators.

In March 2016, the GAF2016 will promote the debate of how to integrate producers and consumers, add value to production and increasing productivity, ensure the food supply to the world of constant transformation and growth. The results and proposals of the event, once again, will be compiled and published in an official document – The Agribusiness Consensus – that will be sent as a suggestion to authorities of the agriculture sector, and public policies makers of all over the world.
