BIO World Congress on Industrial Biotechnology — July 16-19, 2018 — Philadelphia, PA

The BIO World Congress on Industrial Biotechnology provides a unique forum for business executives, government officials, academic researchers and industry leaders to share the latest advances in renewable chemicals, synthetic biology, enzymes, food ingredients, biofuels and more.

Top Reasons to Attend:

- Meet and network with 1,000 global business leaders, investors and policy makers.
 - Attend education all week that covers the latest in Industrial Biotech including Synthetic Biology and Genetic Editing, Advanced Biofuels, Biobased Materials, Renewable Chemicals, Flavors, Fragrances and Food Ingredients, Agricultural Crop Technologies, Biomass Supply and new this year Algae.
 - Schedule targeted meetings using our BIO One-on-One Partnering System - partnering activity is at an all-time high and is open to all attendees.
 - Experience and learn about the latest in technology and innovation in the Exhibit Hall and throughout the event. [READ MORE](#)

EnergyPath and EnergyCamps 2018 — July 23-26, 2018 — Center Valley, PA

EnergyPath is the region's largest sustainable energy event, attracting industry professionals, policymakers, and academia throughout the region and across the United States. The goal of EnergyPath is to increase the knowledge of and passion for sustainable energy in the leaders of today and tomorrow.

The EnergyPath 2018 conference will focus on the theme of Grid Integration. Grid Integration is an increasingly critical issue as the demand for electricity rises along with the growing need for reliable and diverse sources of electricity. Although progress has been made to improve grid stability and resiliency, more needs to be done to integrate renewables, batteries, and vehicles into the electric grid. This conference will evaluate the challenges of grid integration and discuss viable solutions. [READ MORE](#)

PalmEx Malaysia 2018 — July 25-26, 2018 — Sibü, Sarawak, Malaysia

PALMEX MALAYSIA 2018 held once every 2 years is Malaysia's largest specialized palm oil technology event that brings together an international congregation of palm oil companies and also its supporting industries gathered in the heart of the palm oil industry in Sibü, Sarawak, Malaysia to showcase the latest developments in the palm oil industry.

Palmex Malaysia 2018 brings together an international congregation of both upstream and downstream palm oil companies and also its supporting industries

gathered in the heart of the Malaysian Palm Oil industry in Sarawak to showcase the latest development in the palm oil industry.

Currently ranked the world's 2nd largest palm oil producer, this event will be supported by the local Malaysian Palm Oil Community ensuring major players in the industry would be represented at this event. [READ MORE](#)

Revolution in Food and Biomass Production (REFAB) — October 1-2, 2018 — Cologne, Germany

friendly products?

The conference will bring together future-oriented experts from companies, start-ups and research to have a look at the future of food and biomass production.

What high-tech strategies are emerging on the horizon to sustainably supply a growing world population with healthy food – and at the same time provide industry with sustainable biomass for environmentally

The conference gives a unique opportunity to meet the pioneers and forerunners of the future of food and biomass production. Don't miss the revolution, be part of it.

The two-day conference will feature about 50 presentations, more than 500 participants (mainly from industry) and 30 exhibitors are expected. Find the preliminary programme at www.refab.info/programme www.refab.info/registration

In addition, participants from developing countries will receive a 50% discount as long as registration is open. (Early bookers from developing countries will even receive a 60%). Please use the code DEV18

Thermal & Catalytic Sciences Symposium (TCS) 2018 – October 8-10, 2018 — Auburn University, Alabama

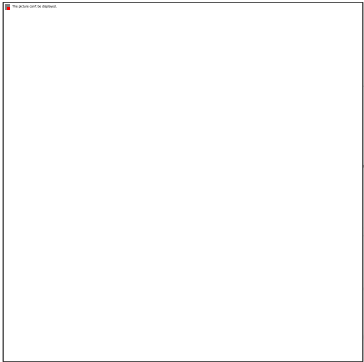

Auburn University is hosting the 2018 edition of the Thermal and Catalytic Sciences Symposium, October 8 – 10, 2018. Called TCS 2018, the event focuses on thermochemical biomass research and development and providing early career scientists and engineers an opportunity to present their research and interact with the senior researchers in the community.

Iowa State University's Bioeconomy Institute (BEI) held the first installment of the symposium in 2010 and co-hosted the event in 2014 with the National Renewable Energy Laboratory. RTI International hosted the event in 2016.

Topics to be covered at the symposium include biomass gasification and gas clean up, biomass gas to liquid, pyrolysis and upgrading, solvent liquefaction, and sugars via thermal deconstruction of cellulosic biomass. Other areas to be addressed are co-products upgrading and utilization, lignin utilization, biomass preprocessing and pretreatment, and technoeconomic analysis, life cycle analysis and policy analysis.

The Thermal and Catalytic Sciences Symposium has been held every other year following the first symposium held in 2010 at Iowa State University with the goal of focusing on thermochemical biomass research and development and providing early career scientists and engineers an opportunity to present their research and interact with the senior researchers in the community. 10th PALMEX Indonesia 2018 — October 9-11, 2018 — North Sumatera, Medan, Indonesia

The 10th PALMEX Indonesia 2018 is the only specialized Palm Oil event in Asia that brings together an international congregation of both upstream and downstream palm oil companies and also its supporting industries gathered in the capital city of North Sumatera, Medan to showcase the latest developments in the palm oil industry.

North Sumatera, home to one of Indonesia’s largest concentration of oil palm plantations and also the presence of many supporting facilities such as palm oil processing plants making its capital Medan the perfect venue for the show. This unique event seeks to educate the public on the importance of the palm oil industry in Indonesia and the future trends of palm oil in the region. More than 7,000 industry professionals from more than 10 countries would be expected to turn up at this event. The international character and regional audience of PALMEX Indonesia 2018 provides unparalleled marketing, education and networking opportunities. [READ MORE](#)

Biofuels International Conference and Expo — October 10-11, 2018 — Berlin, Germany

Now in its 11th year, the acclaimed Biofuels International Conference and Expo will be taking place in Germany for the first time. With regulations and markets constantly evolving, it’s becoming increasingly

important to stay informed on this ever-changing landscape.

Not only will attendees benefit from the fantastic networking opportunities available but they will hear two-days of engaging talks from industry experts and discover the trends that will shape their biofuels plans for the near future.

Brought to you by Biofuels International, the leading international industry publication, this year's conference will be co-located with the International Biogas Congress & Expo as well as the International Biomass Congress & Expo, heralding this series of bio events as our largest gathering yet of bio related companies, giving participants unrivalled coverage.

VENICE2018 – 7th International Symposium on Energy from Biomass and Waste — October 15-18, 2018 — Venice, Italy

The production of energy from alternative sources and its impact on climate change are among the main strategic tools implicated in the sustainable development of our society. Numerous types of biomass and wastes contribute towards the production of energy and reduction in the use of fossil fuels by means of

biological, chemical and thermal processes. Existing biomass and waste to energy technologies are currently undergoing rapid development. Despite growing interest in the use of these technologies, in many countries their implementation remains limited.

The aim of the Venice 2018 Symposium is to focus on the advances made in the application of technologies for energy recovery from biomass and waste and to encourage discussion in these fields. The previous edition of the Symposium, held in 2016, was attended by over 500 scientists and operators from approximately 57 different countries.

The seventh edition of the Symposium will feature:

- Three days of scientific presentations
- One day of guided technical tours at biochemical and thermochemical plants
- Six parallel oral sessions, poster sessions and an exhibition by companies working in the field
- Expected attendance of over 600 delegates from tens of different countries worldwide [READ MORE](#)

ACI's Future of Biogas Europe Conference — November 7-8, 2018 — London, UK

The logo for the 'Future of Biogas Europe 2018' conference. It features the text 'Future of Biogas Europe 2018' in a green, serif font, set against a background of a blurred image of yellow flowers. The text is arranged in four lines: 'Future of', 'Biogas Europe', '2018', and a small '2018' at the bottom.

Future of Biogas Europe 2018

The two day event will bring together senior executives and experts from the full value chain to provide a forum for all parties active in the field of anaerobic degradation of organic matter and renewable energy production in the form of biogas. Power producers, technology providers, agricultural sector, food and beverage industry, waste industry and leading technology and solution providers are all impacted by the development of Biogas. The conference will provide a forum to discuss the latest challenges and developments making an impact on the industry.

Join us in London to participate in interactive sessions & panel discussions with expert speakers sharing knowledge and experience and engage in excellent networking opportunities.

Topics for Discussion

- European Union Biogas & Biomethane Market: Key Developments & Legislative Updates
- Certifications Schemes & Certificate Trading
- Injection into the Grid
- Biogas for the Transport Sector
- Creating Biobased Building Blocks from Biogas and Biomethane
- Financing & Funding Biogas & Biomethane Production
- Biogas Upgrading Technologies
- Technological Innovations Advancing the Industry
- Potential in the Landfill & Wastewater treatment Sector

2018 CAAFI General Meeting and ASCENT Symposium — December 4-6, 2018 — Washington, DC

The CAAFI Biennial General Meeting is an excellent opportunity for CAAFI stakeholders and leaders alike to experience the momentum of the alternative aviation fuel market, which continues to develop and mature every year. CAAFI scheduled its General Meeting for December of this year to allow for the presentation and discussion of results from this year's pending ICAO CAEP and Assembly meetings, progress on, or analysis of, the next Farm Bill, mid-term election results and implications, and the maturation of several commercial activities. Plenary sessions will address all aspects of alternative jet fuel supply chain development and deployment.

The 2018 CAAFI Biennial General Meeting will also include a special partnership with the Aviation Sustainability CENTER (ASCENT) of Excellence, which will use the Meeting as an opportunity to share alternative jet fuel research and progress with the broader CAAFI community. We welcome ASCENT's partnership and look forward to their presentations!

The CAAFI team welcomes your participation in our Biennial General Meeting! [READ MORE](#)
