Talk with Michael Eggelston at the 4th Symposium on Urban Mining and Circular Economy — May 21-23, 2018, in Bergamo, Italy

SUM
2018

To achieve a virtuous application and optimization of current practice, urban mining and circular economy are dependent on the appropriate combination of three worlds (TRIANGLE concept): research and technology (private and public) / administration, economy and industry / policy and regulation. Explore these concepts at the **Urban Mining and Circular Economy** conference.

If you are attending these conferences and have a project, process or product that relates to transportation biofuels or the circular economy, let **Michael Eggleston** know. He'll be covering these conferences and following up with articles about the news he gathers there. [READ MORE](#)

ACI's 8th European Algae Industry Summit — April 25-26, 2018 — Vienna, Austria

Following the success of its previous editions, ACI's 8th European Algae Industry Summit will explore the ongoing developments of the algae industry. With insights from key industry players, the conference will address both the technical and commercial aspects of algae production and its end-uses, in Europe and across the globe.

This edition of the summit will highlight different case studies on the various uses & products made from algae, during dedicated sessions.

The two day event will also propose an in-depth look into the technologies supporting the industry. The participants will also have the chance to discuss how to keep the industry thriving as a whole, through best practices & lessons learnt, as well as ensuring sustainability.

Exclusive Site Visit -- On the afternoon of Tuesday 24th April, a limited group of attendees will have the opportunity to visit the Ecoduna "Hanging Gardens" Plant. [READ MORE](#)

***International Conference on Food Technology — May 14-16, 2018 —
Rome, Italy***

Theme: Optimizing food and nutritional demand with the help of recent technologies -- Food technology 2018 is hosted by EuroSciCon and it focuses on the major issues of food scarcity and nutritional imbalance in people. This is of great concern as the survival of future generation is at stake. Food is essential to live and nutrients to stay healthy so we invite Researchers, Food Technologists, Nutritionists, Academicians, Industrialists and Dietitians to give the world a better solution to this problem. The conference will be a platform to globalize one research, to share scientific experiences, to gain knowledge on new technologies and regulations. The conference is scheduled on May 14-16, 2018 in Rome, Italy. We invite sponsors and exhibitors to showcase your products to our participants and make it reach the public through them. We request you to make use of this opportunity to make the world a better place to live in. [READ MORE](#) For 15% discount on registration fees, use the code ESCAB101

4th Symposium on Urban Mining and Circular Economy — May 21-23, 2018 — Bergamo, Italy

Following the great success of the third edition held in 2016, which saw the participation of almost 300 delegates from a wide variety of countries, SUM 2018 / 4th Symposium on Urban Mining and Circular Economy will be held in the old Monastery of Saint Augustine in Bergamo upper city, in May 2018.

To achieve a virtuous application and optimization of current practice, urban mining and circular economy are dependent on the appropriate combination of three

worlds (TRIANGLE concept): research and technology (private and public) / administration, economy and industry / policy and regulation. This combination is equally important in other fields of waste management, although is of paramount relevance for a Circular Economy. SUM 2018 will focus on all relevant and innovative aspects relating to these three worlds. The Symposium will last three days and will include oral sessions, a poster session and a technical tour. Fuel Ethanol Workshop (FEW) — June 11-13, 2018 — Omaha, NE

Now in its 34th year, the FEW provides the global ethanol industry with cutting-edge content and unparalleled networking opportunities in a dynamic business-to-business environment. The FEW is the largest, longest running ethanol conference in the world—and the only event powered by Ethanol Producer Magazine.

From its inception, the mission of the event has remained constant: The FEW delivers timely presentations with a strong focus on commercial-scale ethanol production – from quality control and yield maximization to regulatory compliance and fiscal management. The FEW is also the ethanol industry’s premier forum for unveiling new technologies and research findings. The program extensively covers cellulosic ethanol while remaining committed to optimizing existing grain ethanol operations. [READ MORE](#)

BIO World Congress on Industrial Biotechnology — July 16-19, 2018 — Philadelphia, PA

The BIO World Congress on Industrial Biotechnology provides a unique forum for business executives, government officials, academic researchers and industry leaders to share the latest advances in renewable chemicals, synthetic biology, enzymes, food ingredients, biofuels and more.

Top Reasons to Attend:

- Meet and network with 1,000 global business leaders, investors and policy makers.
- Attend education all week that covers the latest in Industrial Biotech including Synthetic Biology and Genetic Editing, Advanced Biofuels, Biobased Materials, Renewable Chemicals, Flavors, Fragrances and Food Ingredients, Agricultural Crop Technologies, Biomass Supply and new this year Algae.
- Schedule targeted meetings using our BIO One-on-One Partnering System - partnering activity is at an all-time high and is open to all attendees.

- Experience and learn about the latest in technology and innovation in the Exhibit Hall and throughout the event. [READ MORE](#)

Revolution in Food and Biomass Production (REFAB) — October 1-2, 2018 — Cologne, Germany

The conference will bring together future-oriented experts from companies, start-ups and research to have a look at the future of food and biomass production.

What high-tech strategies are emerging on the horizon to sustainably supply a growing world population with healthy food – and at the same time provide industry with sustainable biomass for environmentally

friendly products?

The conference gives a unique opportunity to meet the pioneers and forerunners of the future of food and biomass production. Don't miss the revolution, be part of it.

The two-day conference will feature about 50 presentations, more than 500 participants (mainly from industry) and 30 exhibitors are expected. Find the preliminary programme at www.refab.info/programme

The call for papers is still open as of March 22. If you would like to introduce your activities, please upload your paper at: www.refab.info/call-for-papers

VENICE2018 – 7th International Symposium on Energy from Biomass and Waste — October 15-18, 2018 — Venice, Italy

The production of energy from alternative sources and its impact on climate change are among the main strategic tools implicated in the sustainable development of our society. Numerous types of biomass and wastes contribute towards the production of energy and reduction in the use of fossil fuels by means of biological, chemical and thermal processes. Existing biomass and waste to energy technologies are currently undergoing rapid development. Despite growing interest in the use of these technologies, in many countries their implementation remains limited.

The aim of the Venice 2018 Symposium is to focus on the advances made in the application of technologies for energy recovery from biomass and waste and to encourage discussion in these fields. The previous edition of the Symposium, held in 2016, was attended by over 500 scientists and operators from approximately 57 different countries.

The seventh edition of the Symposium will feature:

- Three days of scientific presentations
- One day of guided technical tours at biochemical and thermochemical plants

- Six parallel oral sessions, poster sessions and an exhibition by companies working in the field
- Expected attendance of over 600 delegates from tens of different countries worldwide [READ MORE](#)
