**Energy Beet Display and Children's Carbon Cycle Handout Big Hits at Pennsylvania's Keystone Farm Show**

Highlighting Advanced Biofuels USA's work on a feasibility study of the University of Maryland Eastern Shore energy beet project proved to attract many visitors and a bit of buzz at the Keystone Farm Show, "The Farm Show for Farmers" in York, Pennsylvania from January 10-12.

8 pound beets derived from sugar beets Baltimore's Plant Sensory Systems, and plots at UMES.

Few resisted an invitation to pick up the by breeder, grown in test

Once they handled the energy beets, wanted to know the story of the

people experiments

and details about growing and processing them. We were happy to share what we have learned as we prepare a feasibility study funded by a USDA Rural Business Development Grant.

This year children who stopped by the booth received a special [puzzle page](#) about biofuels and the carbon cycle. Focused on what carbon is and how carbon gets recycled when fuels are made from agricultural and forestry processes, the information is reinforced with a word search, maze, picture to color and diagrams of the carbon atom.

Parents of home-schooled children and teachers who stopped by particularly appreciated the handout. In response to requests, it is [available](#) in the Statements and Handouts section on the website homepage.

Advanced Biofuels USA is grateful to Lee Publications, the organizers of the Keystone Farm Show for their continuing support of the organization's educational mission, donating booth space since 2012. In addition to helping the mid-Atlantic farming community learn more about biofuels, this event provides a priceless opportunity for Advanced Biofuels USA to learn, as well.

### 5th Central European Biomass Conference — January 18-20, 2017 — Graz, Austria

The Austrian Biomass Association, the Styrian Chamber of Agriculture and Bioenergy 2020+ GmbH organized in cooperation with Messe Graz from 18 to 20 January 2017 in Graz . 5 Central European Biomass Conference. The agreement at the UN Climate Change Conference 2015 in Paris provides the go-ahead for the global energy revolution. Investments that flowed so far in the fossil energy supplies are increasingly being diverted to renewable energy, under which bioenergy in Europe is the most important. The opportunities for Central Europe, to benefit from the investments in infrastructure and plant engineering as well as the positive effects of bioenergy use are excellent. [READ MORE](#)

### 14th International Conference on Renewable Mobility “Fuels of the Future 2017” — January 23-24, 2017 — Berlin, Germany

The program of the 14th International Conference on Renewable Mobility “Fuels of the Future” is now available for you at [www.fuels-of-the-future.com](http://www.fuels-of-the-future.com). On behalf of the co-organizers, the Union for the Promotion of Oil and Protein Plants (UFOP), the Association of German Bioethanol Producers (BDBe), the Association of the German Biofuels Industry (VDB) and the German Biogas Association (FvB), I cordially invite you to take part on 23/24 January 2017 at Berlin’s CityCube.

As the highlight event of the German and European biofuel industry with more than 500 participants from 30 countries, the specialist conference is a must-attend event for the exchange with German and international stakeholders from politics, the industry and research.

The contents of the conference program have been extended to account for the increasing diversification of engine technologies as well as the research and production of various fuels from renewable energy sources. ### **Lignofuels 2017 — February 1-2, 2017 — Helsinki, Finland**

Advanced Biofuels & Materials — Following the success of the last year's conference in Munich, Germany with Clariant's Sunliquid plant visit, and the previous one to that in Madrid with the Abengoa's demonstration plant site visit. We are delighted to announce that next Lignofuels 2017 Conference will be taking place at the heart of the wood bioenergy

industry – Finland.

The main conference will be held in Helsinki, on the 1st and 2nd of February 2017. A day prior the main conference, 31st of January 2017, a limited number of conference attendees will have the unique opportunity to join an exclusive site visit to the UPM Lappeenranta Biorefinery – The world's first commercial scale wood-based biorefinery in Lappeenranta, Finland.

Already on its 9th edition, this two day conference will bring together key industry stakeholders. We would like to invite you to join our forum discussions and take advantage of excellent networking opportunities, meeting leaders from advanced generation biofuels companies from across the globe. ### **4th Annual Congress on Biofuels and Bioenergy — April 27-28, 2017 — Dubai, UAE**

Join us for two intensive and interesting days of discussing contemporary research. We invite you to contribute and help to shape the Biofuels and Bioenergy congress through submissions of your research abstracts, papers and e-posters. Bioenergy International is cordially inviting for presentation at the conference.

Biofuels Conference-2017 expecting the participants from all over the globe in various fields like:

- Fuel engineers
- Chemical Engineers
- Professors, Researchers, Students and Technical Staff from the field of Chemical Engineering
- Engineers and delegates from Aviation and Automobile companies
- Directors/Co-Directors of research based companies across Europe and US who are investing in Biofuels and Bioenergy [READ MORE](#)

### **ISO Datagro New York Sugar & Ethanol Conference 2017 — May 10, 2017 — New York, NY**

Aiming to discuss the main issues of the global Sugar and Ethanol industries and to bring together representatives of the international community of producers, traders, brokers, investors,

and from the financial market in general, the International Sugar Organization (ISO) and DATAGRO will held, on May 10th, 2017 the 11th edition of the ISO DATAGRO New York Sugar & Ethanol Conference. Consecrated as the official technical event of the New York Sugar Dinner, since its first edition, the Conference has become traditional on the global sugar and ethanol calendar. In 2016, gathered more than 400 leaders from 22 countries, in an intense day of lectures and debates with the most renowned specialists of the sugar and ethanol markets in the world. With simultaneous interpretation in English, Portuguese and Spanish, the Conference takes place at the elegant Hilton Midtown in New York. [READ MORE](#)

### ***International Symposium on Green Chemistry — May 16-19, 2017 — La Rochelle, France***

The main objective of ISGC-2017 is to gather the most eminent scientists involved in the field of green chemistry to debate on the future challenges of Chemistry keeping in mind the problems of access to a sustainable energy, the management of resources (carbon, water, metals, minerals), Human development, global warming, impact on the environment and competitiveness of our Industry. To contribute to solve this complex equation, ISGC-2017 has been thought as a cross-disciplinary platform and should offer to public and private scientists an ideal platform for sharing fundamental knowledge with industrial research and development stakeholders.

On the continuation of the previous editions, ISGC-2017 will gather more than 800 attendees from all around who will exchange on the most recent advances in the field of green chemistry through plenary lectures, keynotes, oral and flash communications and posters organized around multi-parallel sessions with 6 principal topics and industrial sessions.

New in 2017 : to facilitate access to cutting edge research and enable industrials to present their know-how, technologies and innovations, ISGC has created the “Green Chemistry Challenge” and offers an exhibition area, industrial sessions and 1-to-1 meetings for all the participants, with ability to send or receive meeting requests and view companies & academic laboratories profiles. **EUBCE 2017 – 25th European Biomass Conference and Exhibition — June 12-15, 2017 — Stockholmsmässan, Stockholm, Sweden**

The European Biomass Conference and Exhibition will celebrate its 25th edition in Stockholm from 12th to 15th June 2017.

As one of the world's leading R&D conference combined with an international exhibition, the EUBCE represents the leading platform for the collection, exchange and dissemination of scientific know-how in the field of biomass.

The Conference Programme will address topics from biomass itself to bioliquids and biofuels for heat and electricity, transport and biobased products, covering all aspects of each value chain, from supply and logistics to conversion technologies, from industrial application of research results to impacts on the environment, from market and trade aspects to policy strategies, not least to the role of biomass as a source in integrated energy systems.

The EUBCE is supported by European and international organizations such as the European Commission, UNESCO – United Nations Educational, Scientific and Cultural Organization – Natural Sciences Sector, WCRE – the World Council for Renewable Energy, EUBIA – the European Biomass Industry Association, The Central European Initiative, The Global Bioenergy Partnership and other organisations.

The Technical Programme is coordinated by DG Joint Research Centre of the European Commission. [READ MORE](#)

**Metabolomics Conference 2017 — August 29-30, 2017 — Prague, Czech Republic**

Metabolomics is an emerging and promising field among many biological areas of application as metabolite levels changes with developmental, physiological and pathological state. It is sensitive to both genetic and modifying environmental influences that determine the metabolic fingerprint of an individual. Metabolomics Conference 2017 provides a platform to meet top notch experts in the field of metabolomics, systems biology, proteomics, transcriptomics, precision medicine & molecular biology to discuss molecular mechanisms by which genetic information is encoded in DNA. It would be a great opportunity for companies that are dealing in analytical instruments required for this field. It will also be benefitting to the students, researchers, scholars and others participants who will be participating in the world class international workshops, symposia and exhibition which will be directed by specialists in particular field. **Sardinia Symposium 2017 — October 2-6, 2017 — Forte Village, Cagliari, Italy**

Following the incredible success of Sardinia 2015 / Arts Edition, which saw the participation of 732 delegates from more than 70 different countries from all the continents, we are proud to announce the 30th Anniversary of Sardinia Symposia, the reference forum for the international community since 1987.

Sardinia 2017 promises to be the most international and largest event of the year in the field of Waste Management and Landfilling. In line with tradition, the 16th edition of the conference will focus on advances of Waste Management science and technologies, presenting case studies and discussing key controversial subjects, sharing experiences from different countries, and assessing social and economical balances.

The conference will include oral sessions and specialised workshops for a total of eight parallel tracks, parallel events, practical design workshops, business to business meetings, discussion forums, a continuously accessible poster area and a wide exhibition space for companies working in the field of Waste Management. Prior to the start of the Symposium, training courses will be offered by IWWG. [READ MORE](#)

**Palmex Indonesia 2017 — October 3-5, 2017 — Medan, Indonesia**

The 9th PALMEX Indonesia 2017 is the only specialized Palm Oil event in Asia that brings together an international congregation of both upstream and downstream palm oil companies and also its supporting industries gathered in the capital city of North Sumatera, Medan to showcase the latest developments in the palm oil industry.

North Sumatera, home to one of Indonesia's largest concentration of oil palm plantations and also the presence of many supporting facilities such as palm oil processing plants making its capital Medan the perfect venue for the show. This unique event seeks to educate the public on the importance of the palm oil industry in Indonesia and the future trends of palm oil in the region. More than 7,000 industry professionals from more than 10 countries would be expected to turn up at this event. The international character and regional audience of PALMEX Indonesia 2017 provides unparalleled marketing, education and networking opportunities. [READ MORE](#)
