Happenings on Capitol Hill, at the White House

and in Federal Agencies

Washington Auto Show Policy Day Brings Biofuels Conversation to Capitol Hill

“Affordable Mobility: A Roadmap to Energy Efficiency” framed a public discussion of automotive issues for Capitol Hill staff which ranged from fuel efficiency and the new CAFÉ (Corporate Average Fuel Economy) standards to increasing gas taxes (highway user fees) at state and local levels; from vehicle costs related to safety mandates and other regulations to infrastructure needs to achieve greater efficiency and lower emissions.

Advanced Biofuels USA's **Bob Kozak** (pictured) and **Joanne Ivancic** made sure that issues related to the intersection of next generation engines and next generation biofuels were not ignored. [READ MORE](#) [WATCH C-Span Coverage](#)

“Good Bye to All That” Secretary Chu Leaves Department of Energy (With Apologies to Robert Graves)

Also in conjunction with the DC Auto Show, US Department of Energy Secretary Steven Chu spoke about the need to move from petroleum-based transportation fuels. As Joanne Ivancic pointed out in [her coverage of the event](#), no mention was made by the Secretary of the success biofuels (ethanol and biodiesel) have had in replacing about 10% of those petroleum-based transportation fuels. Nor did he mention this achievement in his resignation remarks. [READ MORE](#)

Bob Kozak reflected on Secretary in an [opinion Digest](#) and Chem.info. *Secretary of the Department resignation today (February address. While this is the*

hopes for a new and improved Energy [piece](#) that was republished in *Biofuels*. An excerpt: *of Energy Steven Chu announced his 1st) in a 3,700 word “Dear Colleague” time usually reserved for valedictory addresses or sentimental remembrances, I for one cannot do that. For me, and I'd guess other supporters of biofuels and all*

those who support balanced leadership of all DOE programs, it is a time of Good Bye to All That and a hope that the future will be better. [READ MORE](#)

On the Road

Biodiesel Industry Celebrates 20th Birthday in Las Vegas; Lives to Fight Again

Joanne Ivancic spoke, along with a panel comprised of **Ron Kotrba** of *Biodiesel Magazine*, **Carl Lisek** of the South Shore Clean Cities Coalition and **Ezra Finkin** of the Diesel Technology Forum and moderated by **Jessica Robinson** of the National Biodiesel Board, at the National Biodiesel Conference in Las Vegas. They explored "Biodiesel Impressions: A Look at America's Advanced Biofuel How Others See It."

The National Biodiesel Board decided that "it's important to know where we stand in the rhetoric of biofuels and to understand what our customers and market leaders think of biodiesel. These opinions impact policy and can ultimately mean long term success or failure." The panel reflected on what they are hearing and what they think of biodiesel right now. And they were candid and blunt.

In addition to expressing her views, Ivancic interviewed **Chris Hill**, Director of the Minnesota Soybean Growers Association and **Jerry Bambauer**, President of the Ohio Soybean Association about the history, current industrial practices, and anticipated future of soy-based biodiesel, including the impact of trans-fat bans on the markets and development of new types of soybeans. [READ MORE](#) and [MORE](#)

Ivancic poses with Ford's Gerald Koss and their new Super Duty F250, built to use B20 diesel fuel at the National Biodiesel Expo; and with the poster showing Advanced Biofuels USA's logo as a media sponsor.

Limited Daily News Postings on Advanced Biofuels USA Website

Due to funding constraints, Advanced Biofuels USA is suspending comprehensive posting of daily news about advanced biofuels. Instead, we will enhance our focus on writing original pieces highlighting what is going on with advanced biofuels policy and production. We will also keep up and enhance our links to resources on Daily News, Job Postings, Educational Resources, Teacher Resources, Educational Opportunities (by US state and international), Coming Events for the next month or so and other Coming Events. We will continue to provide informal consulting for educational activities of all kinds.

Upcoming Advanced Biofuels Conferences and Activities: Some Details

Municipal Solid Waste to Biofuels and Bio-Products Summit

Feb 20-21, 2013 Orlando, FL

Build Strategic Partnerships in Feedstock and Finance to Commercialize Your Waste to Biofuels Business

1. Commercialization : The Race for Scale: Adopt proven pathways towards commercialisation from the leading companies in MSW to Biofuels
2. Project Economics: Evaluate potential revenue streams and build a project plan that will guarantee you feedstock security, an offtake agreement and a willing financial investor
3. Finance & Strategic Investment: Build strategic partnerships to ensure you have the credibility to secure investment
4. Project Development and Operations : Secure the most cost effective route to developing and operating an economically viable biofuels project
5. How to work with State and National Bodies for Progress: Discover how federal and state policy and teaming up with a municipal group, can assist emerging technologies in reaching commercialization

At the Municipal Solid Waste to Biofuels & Bio-Products Summit you'll receive leading Waste and Biofuels market intelligence and analysis from the very best in the business. [READ MORE](#)

AlgaeWorld MENA February 25-26, 2013 – Dubai, UAE

Does the region have the potential for Sustainable Microalgae mass cultivation?

Regional highlights

- Leading developments in Sustainable Algae biojet fuels in Qatar
- Algal biorefinery concept in Saudi Arabia
- Screening and Bio-engineering strains for higher lipid
- Integrating microalgae Co2 mitigation with waste water and produced oil &

gas water

Who will you meet?

- Algae Producers
- Renewable Energy Investors
- Biofuel/Ethanol Industry
- Heavy Industries
- Cement, Steel etc
- Power Plants
- Distilleries
- Venture Capitalists
- Institutional Investors
- Financial Institutions
- Industry players

- Oil, Gas Cos
- Refineries
- Biotech Engineering Cos
- Airlines
- Government Departments and Agencies
- Research Consortiums
- Cos in nutritional, health, high value added products
- Animal Feed Producers
- Aquaculture Industries
- Food Science Cos
- Technology Providers from Algae cultivation to downstream processing technologies [READ MORE](#)

F.O. Licht's Sugar and Ethanol Asia February 26-27, 2013 Bangkok, Thailand

F.O. Licht's Sugar and Ethanol Asia, which is now in its 7th year, takes place at a time when Asia has moved into the limelight of the sugar and ethanol industry as international suppliers are looking for new markets. At the same time sugar crop production within the region continues to improve and new plants come online. This is a unique opportunity for you to meet, network and do business with decision-makers from the Asia Pacific region and beyond.

Bringing together ethanol and biofuel producers, sugar millers, traders, technology companies, shipping and logistics companies and users of fuel, industrial and beverage ethanol, **F.O. Licht's Sugar and Ethanol Asia** will be a unique opportunity to network and hear from key industry players from a region that offers huge potential for expansion, trade and investment.

Bio-Based Chemicals Conference and Exhibition March 13-14, 2013 Rotterdam, The Netherlands

Bio-based Chemicals conference and exhibition will return for a 5th year as part of Europe's largest bioeconomy event- the 8th Annual World Biofuels Markets. Taking place in Rotterdam at the Beurs World Trade center, this year's event promises to build upon the success of 2012 to deliver the latest strategy updates from the chemical giants, news from the successful joint ventures of the past 12 months and key supply chain overviews as bio- based chemicals and products continue towards commercialisation.

Bio-based Chemicals 2013 will once again be co-located with the 8th annual World Biofuels Markets Congress and Exhibition - which will bring together over 1500 decision-making delegates, thought-leading speakers and world-class sponsors from every part of the biofuels value chain, in one place at one time, to debate the most current topics and network like crazy.

Two industry-leading events for the price of one: Register for Bio-based Chemicals or World Biofuels Markets and attend either events on the days you register for. [READ MORE](#)

World Biofuels Markets Congress & Exhibition March 12-14, 2013 Rotterdam, The Netherlands

Now in its 8th year, the World Biofuels Markets Congress & Exhibition continues to cement its place as the number one event for biofuels globally. Developed in 2006 in response to the new global market for alternative lower emission renewable fuels, it is now the most recognisable brand in the biofuels industry.

Why attend in 2013?

To continue to offer you the value you need, we are deepening our agendas to provide a more in-depth analysis of the hottest areas in biofuels. Whether you attend World Biofuels Markets to hear about just one key biofuels area or you use the event to get a bird's eye view of the entire industry, this year's agenda will cater for your needs.

- BioFeedstocks *Now a 3 day conference*
- Aviation *Now a 2 day conference*
- Sustainability, Certification & iLUC *Now a 2 day conference*
- Advanced Biofuels *Now a 2 day conference*
- Finance & Investment *Now a 2 day conference*
- Biofuels & Sustainable Agriculture *Now a 2 day conference*
- Emerging Markets
- Biorefinery Platforms
- Downstream Partnerships
- Biodiesel Production & Trading
- The Water Debate *New for 2013*
- Industrial Biotechnology *New for 2013*
- Sustainable Agriculture *New for 2013* [READ MORE](#)

3rd Commercial Farm Africa March 19-20, 2013 Accra, Ghana

“Into Africa- Building Local Markets, Improving Farm Productivity & Increasing ROI”

Key highlights

- Climate change and the impact on global agriculture market
- Investment opportunities & land utilization in **Ghana, Mozambique, Tanzania, Zambia, Nigeria, Cote D'Ivoire, Ethiopia, Liberia & etc**
- Experience sharing by farm operators in Africa
- Focus on: **Sugar, Corn, Rice, Cassava, Palm, Bioenergy Crops & Rubber**
- Transforming small-holders farm and management of out-growers scheme
- Infrastructure development and access to markets
- Management and access to input materials
- Securing funding for agri-investment

You will network with

Farm & plantation investors/owners, Asset management company, Investment banks & agricultural funds
Fertilizer companies, Seed suppliers, Tax & legal firm, Insurance companies, risk management consultant
Agrochem & biotech companies Irrigation industry, Food companies, agri commodity buyers/traders, Government organization & investment board [READ MORE](#)

International Biomass Conference and Expo April 8-10, 2013 Minneapolis, MN

The 6th annual International Biomass Conference & Expo will take place April 8-10, 2013, at the Minneapolis Convention Center in Minneapolis, Minnesota. This dynamic event unites industry professionals from all sectors of the world's interconnected biomass utilization industries—biobased power, thermal energy, fuels and chemicals.

Organized by BBI International and produced by Biomass Magazine, this event brings current and future producers of bioenergy and biobased products together with waste generators, energy crop growers, municipal leaders, utility executives, technology providers, equipment manufacturers, project developers, investors and policy makers. It's a true one-stop shop – the world's premier educational and networking junction for all biomass industries. [READ MORE](#)

Sugar Trade Asia April 24-25, 2013 Yangon, Burma/Myanmar

CMT is an active global conference organizer and since 1982 supports business development across Asia, MidEast/Africa and the Americas.

Recent political and economic reforms in Myanmar are very encouraging with the country favored as the rising star in Asia...CMT is contributing by bringing business and investments to the country with events that offer vital business intelligence. CMT covers all the key sectors - Energy, Mining, Agriculture, Real Estate, Infrastructure, Finance, Power, Telecoms and

many more. This agriculture related event themed as

"Myanmar Sugar Industry Masterplan & Investment Potential"

"Global Oversupply - Counting on Asian Demand to Hold its Strength"

- Revitalising Myanmar's sugar industry -Yield Improvement technologies & mechanised farming
- Consolidation in Brazil's sugar sector
- Rising demand and rebuilding stocks in China
- Thailand export outlook for 2013/2014
- Enhancing sugar yields - learning from India

Whom you will network with: key officials, investors, equity/fund managers, plantation cos, sugar & sweeteners manufacturers, traders, consumer markets - food & bev sector, ethanol producers, machinery suppliers, logistics cos.

3rd Annual European Algae Biomass Conference April 24-25, 2013 Vienna, Austria

ACI's 3rd annual European Algae Biomass Conference will once again bring together senior executives from industry and academia to discuss the latest commercial and technical developments, challenges and research breakthroughs throughout the entire algae value chain.

The conference will have a heavy focus on case study examples of latest technologies in operation in the global algae industry and also includes an exclusive site visit on Tuesday 23rd of April 2013. Discuss the technical challenges faced when optimising the cultivation of algae. Study the current and future commercial markets for algae products and the challenges faced during the commercialisation process including the views from three different end markets.

Site visit to Ecoduna's algae cultivation facilities also included.

Key topics include:

- Commercial market analysis & forecasts
- Strain selection & genetic engineering
- The future for European algae biomass: View from diverse markets
- Algal culture systems: Latest developments from laboratory & field
- Harvesting, dewatering, drying & oil extraction: Maximising efficiency & reducing cost
- Commercial algae production: Case study examples
- Biofuel production & biorefining
- Algae-based CO2 capture
- Algae as an investment opportunity: An investor's viewpoint [READ MORE](#)

21st European Biomass Conference and Exhibition June 3-7, 2013 Copenhagen, Denmark

The 21st European Biomass Conference and Exhibition will take place at Bella Center in Copenhagen, Denmark from 3 to 7 June 2013.

For over 30 years now, the European Biomass Conference and Exhibition (EU BC&E) has combined a very renowned international Scientific

Conference with an Industry Exhibition. The EU BC&E is held at different venues throughout Europe and ranks on top of the world's leading events in the Biomass sector.

This EU BC&E is supported by European and international organizations such as the European Commission, UNESCO - United Nations Educational, Scientific and Cultural Organization, Natural Sciences Sector, WCRE - the World Council for Renewable Energy, EUBIA - the European Biomass Industry Association, and other organisations.

The Technical Programme is coordinated by the European Commission, Joint Research Centre JRC.

Targets and content of the EU BC&E

The Conference will discuss major issues for the biomass markets, in technical and business areas, from resource assessment to market and policy developments, drawing on leading experiences from all over Europe and worldwide. The event aims to encourage an international exchange of experience on policy, research and development, manufacturing and installation, and to be a showcase for the latest technologies.

The conference is expanding its coverage on the growing issue of bioeconomy, a sector that has strong links to bioenergy where Denmark became a leading country.

Copenhagen - the ideal location for the 21st edition of this European event

Copenhagen has unique facilities, transports and logistics to host attendees from all over the world, while offering great attractions for social activities during the conference week.

Hop on a bike and experience Copenhagen's renewable environment by participating at the 21st EU BC&E! [READ MORE](#)

9th International Conference on Renewable Resources & Biorefineries June 5-7, 2013 Antwerp, Belgium

The 9th edition of the International Conference on Renewable Resources & Biorefineries will take place in Antwerp, Belgium, from Wednesday June 5 until Friday June 7, 2013.

Delegates from university, industry, governmental and non-governmental organizations and venture capital providers will present their views on industrial biotechnology, sustainable (green) chemistry and agricultural policy related to the use of renewable raw materials for non-food applications and energy supply.

The conference further aims at providing an overview of the scientific, technical, economic, environmental and social issues of renewable resources and biorefineries in order to give an impetus to the biobased economy and to present new developments in this area. The conference will provide a forum for leading political, corporate, academic and financial people to discuss recent developments and set up collaborations.

The three day international conference will consist of plenary lectures and oral presentations by international experts, a poster session and an exhibition. Companies and research organizations are offered the opportunity to organize a satellite symposium. [READ MORE](#)

International Fuel Ethanol Workshop & Expo June 10-13, 2013 St. Louis, MO

Now in its 29th year, the FEW provides the global ethanol industry with cutting-edge content and unparalleled networking opportunities in a dynamic business-to-business environment. The FEW is the largest, longest running ethanol conference in the world—and the only event powered by [Ethanol Producer Magazine](#).

From its inception in 1985, the mission of the event has remained constant: The FEW delivers timely presentations with a strong focus on commercial-scale ethanol production – from quality control and yield maximization to regulatory compliance and fiscal management. The FEW is also the ethanol industry's

premier forum for unveiling new technologies and research findings. The program extensively covers cellulosic ethanol while remaining committed to optimizing existing grain ethanol operations.

The 2013 FEW program is segmented into four concurrent tracks:

[Track 1: Production](#)

[Track 2: Leadership and Financial Management](#)

[Track 3: Coproducts](#)

[Track 4: Cellulosic and Advanced Ethanol](#) [READ MORE](#)

European Biodiesel 2013 June 12-13, 2013 Lisbon, Portugal

Reviewing the Latest Technologies, Policies & Strategies Shaping the Future of First & Advanced Generation Biodiesel & Bio-Oil Derived Jet Fuel in Europe

A unique and highly-focused event, ACI's 6th annual European Biodiesel conference will comprise two days of formal presentations, interactive panel discussions and excellent networking opportunities, providing an open and intimate setting for senior executives and experts from the following industries:

- First generation biodiesel (FAME)
- Advanced generation renewable diesel (BTL, HVO, cellulosic diesel, algae, jatropha, bacteria, yeast, fungus etc.)
- Renewable jet fuel derived from bio-oil (jatropha & algae)

During the afternoon of Tuesday 11th June 2013, a limited number of European Biodiesel 2013 attendees will receive the unique opportunity to visit the lab, crushing unit and biodiesel production unit of Iberol – Sociedade Ibérica de Biocombustíveis e Oleaginosas, S.A..

The site visit is at no extra cost.

15% Discount for members. Register before 27th of April and quote ref: EAF6_ABF

Reserve your space upon registration for the conference.

For full brochure, discount & registration contact:

Cheryl Williams on +44 207 981 2503 or email: cwilliams@acieu.net

tcbiomass2013 September 3-6, 2013 Chicago, IL

Plan to connect with many of the world's leading researchers, scientists, and engineers in gasification, pretreatment, pyrolysis, and upgrading. This

premier 3-day forum for technology exchange will not only be informative and educational but also provide networking opportunities and actionable insight to accelerate progress towards the maturity of bioenergy technologies.

The use of biomass as a renewable and sustainable fuel is growing as industry experts move advanced conversion processes along the path to commercialization—and the world toward a cleaner, more diverse, and affordable energy future. The thermochemical conversion pathway will continue to be critical for maximizing biomass resource utilization for the production of heat, power, and fuels. Participants attending tcbiomass2013 will be at the center of international collaboration, hearing the latest research, development, and deployment results for thermal biomass conversion technologies and systems. PalmEx Indonesia 2013 October 2-4 Medan, Indonesia

The 5th PALMEX Indonesia 2013 is the only specialized Palm Oil event in Asia that brings together an international congregation of both upstream and downstream palm oil companies and also its supporting industries gathered in the capital city of North Sumatera, Medan to showcase the latest developments in the palm oil industry.

North Sumatera, home to one of Indonesia's largest concentration of oil palm plantations and also the presence of many supporting facilities such as palm oil processing plants making its capital Medan the perfect venue for the show. This unique event seeks to educate the public on the importance of the palm oil industry in Indonesia and the future trends of palm oil in the region. More than 5,000 industry professionals from more than 10 countries would be expected to turn up at this event. The international character and regional audience of PALMEX Indonesia 2013 provides unparalleled marketing, education and networking opportunities. [READ MORE](#)

BIO World Congress on Industrial Biotechnology and Bioprocessing June 16-19, 2013 Montreal, Quebec, Canada

The BIO World Congress on Industrial Biotechnology and Bioprocessing is the world's largest industrial biotechnology event for business leaders, investors and policy makers in biofuels, biobased products, and renewable chemicals.

Entering its tenth year, BIO World Congress offers unique networking opportunities, an overview of the latest technological developments and real world scenarios for bringing technological solutions to market. The event features discussions of high profile topics related to climate change, sustainability, new sources of fuel, financing, and policy. The conference also offers business partnering opportunities.

A Poster Session and Exhibit Hall will provide attendees with an unparalleled opportunity to converse with their colleagues and learn about the latest developments in the field of industrial biotechnology and bioprocessing. We are excited to bring this conference to Montreal to highlight the industry's growth, the importance of this industrial and environmental biotechnology for generating green jobs, making greener

products and cleaner processes all aimed at building a biobased economy. [READ MORE](#)

Pacific Rim Summit on Industrial Biotechnology & Bioenergy December 8-11, 2013 San Diego, CA

The annual Pacific Rim Summit on Industrial Biotechnology and Bioenergy is the original conference dedicated solely to the growth of the industrial biotechnology and bioenergy sectors in North America and the Asia-Pacific region. This year's event will be held in San Diego, California from December 8-11, 2013.

Programs will address the latest in advanced biofuels, algae, biomass production, biopolymers, bioplastics, dedicated energy crops, renewable chemicals, marine bio-resources and synthetic biology.

The event annually brings together delegates from:

The United States

Canada

Malaysia

China

Japan

Australia

India

Thailand

New Zealand

And more [READ MORE](#)

You Can Help, too! MAKE EVERY DAY EARTH

DAY!

Currently, the people putting this together for you are all volunteers. We live all over the US and come from various corners of the world. As you see from the volunteers staffing the Advanced Biofuels USA table at the American Chemistry Society Green Chemistry Institute conference, the work can be fun as well as educational.

Please join us in whatever way YOU can. See the [Volunteer Job Openings pages](#) on our web site or just give us a call (301-644-1395) or

send an email: info@AdvancedBiofuelsUSA.org. We can put together a way for your talents to help us achieve our mutual goals

We also need funds! Trying to figure out the perfect "green" gift? Give "green" to us in honor or memory of others who care about preserving this Earth by donating to Advanced Biofuels USA for year-round "green" action. [DONATE](#) now! We'll send a special card acknowledging your gift.

You are welcome to host a fundraiser for us while telling our story. Have a house party to educate family and friends about advanced biofuels and take up a collection for us. Even \$100 helps pay for ink for office printers. Let us know!

Watch for our annual summary of activities and plans for 2013; coming soon with a request for your financial support.

If you have any questions or suggestions—or want to contribute to our success in any way, don't hesitate to call 301-644-1395 or write to jivancic@advancedbiofuelsUSA.org

You have received this newsletter because you indicated to us an interest in Advanced Biofuels USA. We hope you find it useful. If you want to stop receiving these occasional newsletters, just follow the instructions below.
