Dear << Test First Name >> :

RIGHT NOW, the future of advanced biofuels throughout the world is threatened by **unscientific fear-mongering** that feeds on real concerns about the adequacy of our planet to support its population with sufficient food and power. There is a desperate need for an organization that strives to build a **bridge of understanding**, to bring knowledge and information to decision-makers and the general public. **Advanced Biofuels USA is that organization.**

As 2010 draws to a close, we are turning to you with an urgent request.

We need your help and your generous support to continue to build these bridges. [Click here to make a donation to Advanced Biofuels USA.](#) **Giving \$5 or more would help us reach our goal** of raising \$10,000. Only you can give us the resources we need to **bring reasoned discourse to this heated debate.**

We thought that “**growing your own**” fuel, taking advantage of **nature’s carbon cycle reviving faltering economies** and **mitigating climate change** would attract the support of millions. But no. We have met resistance at every turn. We need your help and your generous year-end contribution to meet these relentless attacks.

Since 2008, as an all-volunteer non-profit organization, Advanced Biofuels USA has served as a **trusted, non-biased** actor helping the general public, decision-makers, journalists, investors, teachers, and students learn about advanced biofuels and creating a secure, green energy future.

I am writing to you today to ask for your support on this effort. With your help, we can continue to:

- **Help** the public understand that there is *more to “biofuels”* than corn-ethanol and soy-diesel.
- **Educate** decision makers, policy leaders and the public on the *advantages and benefits of advanced biofuels*
- **Support** other organizations *advocating for advanced biofuels*
- **Consult** about *industry trends, and opportunities, government actions*

Advanced Biofuels USA is going to use every single tool at our disposal to give decision-makers the knowledge they need to make wise decisions. We won’t let up in our battle to protect our planet, AND we’re counting on you to provide us with the resources we need.

[Click here to make a donation to Advanced Biofuels USA.](#) **Giving \$5 or more would help us in this critical battle.** **We need to raise \$10,000 in order to have the resources necessary to educate Congress, the media, and the general public about the truth about advanced biofuels.**

We at Advanced Biofuels USA understand the uphill battle that we face, but we remain undaunted. We know that we have people like you on our side. So please, continue to stand with us as we strive to bring reason and thoughtfulness to a fear-mongered debate.

Advanced Biofuels USA, a 501(c)3 educational nonprofit organization advocates for the adoption of **advanced biofuels** as an energy security, economic development, military flexibility and climate change **solution**. Our web site, www.AdvancedBiofuelsUSA.org, serves as a one-stop-shop for information about advanced biofuels feedstocks, technologies, policies, practices, and principles.

See what we've already accomplished against daunting odds. Join thousands of people from around the world who [visit our web site](#) regularly to expand their understanding of advanced biofuels.

Your support allows our volunteer scientists, policy experts and staff to carry out important work assuring energy security, maintaining military strategic flexibility, renewing rural development and fighting climate change. [Click here to contribute now!](#)
