Hawkins elected Chair of Board of Roundtable on Sustainable Biofuels Services Foundation

BARBADOS & SANTA BARBARA - February 11,2012

BioJet International Ltd. announced today that its Chairman Mitch Hawkins has been elected Chair of the Board of the Roundtable on Sustainable Biofuels Services Foundation www.rsbservices.org

The RSB Services Foundation, the implementing entity of the Roundtable on Sustainable Biofuels, yesterday announced that it has officially started operations as an independent entity

Concurrently, the RSB announced the first certification against the RSB Global Sustainability Standard has been achieved by the Manildra Group of Australia.

The RSB Services Foundation is a US based non-profit organization formed in October 2011 to manage a broad range of operational activities on behalf of the RSB Standards Body, including the certification process and oversight of licensing and use of the trademark.

The Foundation will develop and manage the tools to facilitate the global adoption of the RSB standard and to support the continued work of RSB Standards through education, training and communications programs.

For more information on the Roundtable on Sustainable Biofuels, please visit their website at <http://rsb.epfl.ch/page-24898.html>

BioJet International is an international leader across the supply chain in renewable (bio) jet fuel and related co-products which include green diesel for the aviation and related commercial transportation sectors. The firm's operations span the entire biofuel chain including the generation of feedstock; technology; refining; logistics; sustainability certification; distribution and eventual end use by the aviation sector world-wide. BioJet is also the first Alternative Fuels Strategic Partner of the International Air Transport Association. www.biojetcorp.com
