2017

July

- [BIO World Congress on Industrial Biotechnology — July 23-26, 2017 — Montréal, Canada](#)
- [Building the Northeast Bioeconomy: Making Connections — July 24-25, 2017 — State College, PA](#)
- [4-H Renewable Energy Camp — July 24-28, 2017 — East Lansing, MI](#)
- [EnergyPath 2017 — For Our Future: Carbon Reduction — July 24-27, 2017 — Center Valley, PA](#)
- [U.S. Department of Commerce's \(DOC\) International Trade Association Renewable Energy and Energy Efficiency Advisory Committee \(REEEAC\) Meeting — July 27, 2017 — Washington, DC](#)
- [Cell-Free Synthetic Biology and Biocatalysis Listening Day — July 30, 2017 — Denver, CO](#)
- [Society for Industrial Microbiology and Biotechnology Annual Meeting and Exhibition 2017](#)

— July 30–August 3, 2017 — Denver, CO

## August

- Biodiesel Basics – A Tour of REG Madison — August 1, 2017 — Madison, WI
- SugarTech Indonesia 2017 — August 15-16, 2017 — Surabaya, Indonesia
- Crop Residues for Advanced Biofuels Workshop — August 15-17, 2017 — Sacramento, CA
- UC San Diego Extension’s Microbial Fermentation Workshop — August 16-18, 2017 — San Diego, CA
- Green Jobs – Current and Future Trends AND Workshop – What’s Your Green Career Plan? — August 17, 2017 — Washington, DC
- Biochar: Production, Characterization and Applications — August 20-25, 2017 — Alba, Italy
- Teacher Awareness Immersion Program — August 29, 2017 — Minneapolis/Bloomington, MN
- Metabolomics Conference 2017 — August 29-30, 2017 — Prague, Czech Republic
- Discovering Farmland: Teacher Awareness Immersion Program — August 31, 2017 — Sacramento, CA

## September

- 8th Annual Kingsman Asia Sugar Conference — September 6-8, 2017 — New Delhi, India
- 4th Annual Kingsman Miami Sugar Conference — September 11-13, 2017 — Miami, FL
- Energy Conference — September 11-13, 2017 — Des Moines, IA
- Novel Technologies in Oilseed Processing, Edible Oil Refining and Oil Modification — September 12-13, 2017 — Munich, Germany
- Mid-Atlantic Biomass Energy Conference and Expo: Building the Bioeconomy — September 12-14, 2017 — State College, PA
- RWM — September 12-14, 2017 — Birmingham, UK
- SugarTech Indonesia 2017 — August 15-16, 2017 — Surabaya, Indonesia
- 2017 Technology Challenges and Opportunities in Commercializing Industrial Biotechnology — September 17-19, 2017 — San Diego, CA
- BIO Latin America Conference — September 18-20, 2017 — Rio de Janeiro, Brazil
- 2017 BDC Fall Symposium — September 19-20, 2017 — Minneapolis, MN
- tcbiomass2017 — September 19-21, 2017 — Chicago, IL
- F.O. Licht’s Sugar and Ethanol Africa — September 19-21, 2017 — Nairobi, Kenya
- proBiogas International – Engineering and Operating Course with Field Trips — September 19-27, 2017 — Stuttgart, Germany
- Sustainable First and Second Generation Bioethanol for Europe: Opportunities for People, Planet and Profit — September 26, 2017 — Brussels, Belgium
- Bio-Based Live Americas — September 26-27, 2017 — San Diego, CA
- 6th International Conference on Lignocellulosic Ethanol (6ICLE) — September 27-28, 2017

### Thoughts from the Fuel Ethanol Workshop and National Advanced Biofuels Conference and Expo

Advanced Biofuels USA board member, Doug Root, attended FEW and the concurrent National Advanced Biofuels Conference and Expo and shared his thoughts and insights.

He observed that the general session panels covered more detail about the export challenges and the needed partnerships with retailers and auto manufacturers in the domestic market to allow wider availability of higher ethanol blends (E15 and above).

Increased awareness that ethanol is the lowest cost and 'greenest' octane enhancer is needed. Auto manufacturers trying to meet their commitments to higher fuel economy will

need to utilize higher compression engines and higher octane fuels which are likely to contain much more than 10% ethanol.

Ethanol producers are looking for greater diversity in products and the technology providers have options ready for 'bolt-on' additions that allow pre-fermentation extraction of corn oil, improved recovery of Distiller Corn Oil (DCO), conversion of DCO to biodiesel, and 'front-end' fractionation into corn bran, corn germ, and fermentable corn starch. There appear to be several options for production of cellulosic ethanol within the

existing fermenters at operating ethanol plants with at least one option requiring no additional equipment. [READ MORE](#)

## Future Activities: Come See Us!

We will be covering the occasional events related to biofuels. Look for us!

### Visit Advanced Biofuels USA Exhibit at EnergyPath 2017 — For Our Future: Carbon Reduction on July 27, 2017 in Center Valley, PA

Advanced Biofuels USA executive director **Joanne Ivancic** will present an overview of biofuels along with an update on local endeavors and information about use of ethanol cook stoves at the July 27 symposium at EnergyPath 2017. Preceded by three days of Energy Camp, the symposium and exhibits cover a variety of renewable energy topics; and include student science fairs.

Come visit with Joanne and **Pamela (Pandy) Rockwell** at our information booth, courtesy of the

Sustainable Energy Fund.

We will also have displays of ethanol cook stoves from **Project Gaia**. [READ MORE](#)

### Visit with Michael Eggleston in October at EFIB, European Forum for Industrial Biotechnology & the Bioeconomy 2017

EFIB is THE market leading annual event in Europe for Industrial Biotechnology and the Bioeconomy and **Michael Eggleston**, one of our newest volunteers, will be covering this event for us during his year of study in the EU as he takes a break from research on bio-based batteries and expands his understanding of bio-based fuels, chemicals and products.

Let him know what you are up to these days and watch for his article about the conference in a coming newsletter. [READ MORE](#) And see below for discount

**Metabolomics Conference 2017 — August 29-30, 2017 — Prague, Czech Republic**

Metabolomics Conference 2017 provides a platform to meet top notch experts in the field of metabolomics, systems biology, proteomics, transcriptomics, precision medicine & molecular biology to discuss molecular mechanisms by which genetic information is encoded in DNA. It would be a great opportunity for companies that are dealing in analytical instruments required for this field. It will also be benefitting to the students, researchers, scholars and others participants

who will be participating in the world class international workshops, symposia and exhibition which will be directed by specialists in particular field. [READ MORE](#)

**Energy Conference — September 11-13, 2017 — Des Moines, IA**

Top energy experts, trend forecasters, and industry leaders will convene in the heart of renewable energy production to share timely information, best practices, and regulatory overviews. With a thoughtful balance of practical education sessions, profit-focused discussions, and valuable networking opportunities, this unique national conference creates the perfect chance for you to CONNECT, COLLABORATE and INNOVATE alongside global drivers and decision-makers from all leading and emerging energy sectors. The Energy

Conference focuses on creating profit-driven opportunities that accomplish the goals of an energy independent future for America. The Third Annual Energy Conference will feature top energy experts, trend forecasters, and industry leaders sharing timely information, best practices, and regulatory overviews. [READ MORE](#)

**F.O. Licht's Sugar and Ethanol Africa — September 19-21, 2017 — Nairobi, Kenya**

F.O. Licht's Sugar and Ethanol Africa brings together biofuel and ethanol producers, traders, sugar millers, technology companies, shipping and logistics companies and users of fuel, industrial and beverage ethanol. Take advantage of this unique opportunity to network and hear from key industry players from a region that offers huge potential for expansion and investment. Featuring specialists in ethanol plant design and operation, this is a must-attend workshop to improve your knowledge on the fundamentals of ethanol production, identifying the key factors in

maximising production efficiency and implementing new technologies and finding out how best

to run your plant in a sustainable and profitable manner. [READ MORE](#)

**10th Biofuels International Conference and Expo — October 4-5, 2017 —  
Edinburgh, Scotland**

Now that the European Commission has released its plans for biofuels post 2020 with RED II, the industry can plan and prepare accordingly.

Opportunities undoubtedly still remain as the sector evolves taking new legislation into account and renewable energy targets must still be met with governments committed to reducing their country's GHG imprint. Biofuels will continue to play a crucial role in the fuel supply chain with current and new producers looking to improve their processes and search for new markets, whether that be aviation, marine or vehicle biofuels.

For the first time held in partnership with Bioenergy Insight conference & expo, it will focus on the latest developments in biofuels policy, international biofuels trading, sustainability, solutions for first generation producers, progress in advanced biofuels and information on feedstock pricing and trends. It's a must attend industry event with many great networking opportunities. With over 200 attendees over 2 days of high level presentations and discussions it is an excellent opportunity to engage with the market and to highlight your company's products and services. **European Forum for Industrial Biotechnology & the Bioeconomy (EFIB) 2017  
— October 9-11, 2017 — Brussels, Belgium**

EFIB is THE market leading annual event in Europe for Industrial Biotechnology and the Bioeconomy.

Industrial Biotechnology is currently worth €23 billion representing just 6% in sales of the overall worldwide chemicals market. However, it is significantly outperforming the overall chemicals market at an impressive 20% annual growth rate and has the potential to become the dominant technology of tomorrow's chemicals industry, representing a huge future opportunity.

Delivering on this opportunity will require significant investment, innovation and value chain development and most importantly new collaborations across the sector. Additionally we are faced with important challenges posed by high energy prices, the impact of the shale gas boom on the development of biobased chemicals markets and the ongoing need for predictable, coherent and supportive policy in the EU.

In order to understand and overcome these challenges and prosper in the industrial biotechnology market, industry experts throughout the vibrant and innovative biobased

community come together to one central location every year to discuss the key issues and gain a snapshot of the most significant developments on scale up of commercial biorefineries around the world.

That location is the European Forum for Industrial Biotechnology & the Bioeconomy (EFIB), where delegates are provided with an update on the status and outlook of biobased industries. EFIB is proud to foster engagement between policy makers, a broad range of stakeholders connected with the existing biobased value chain and seeks to reach out to, and include, new interlocutors. ### **ABLC NEXT 2017 — October 16-18, 2017 — San Francisco, CA**

At ABLC NEXT, you'll meet application and platform developers, investors, policymakers, end-use customers and channel & development partners for the newest technologies of the advanced bioeconomy: health, nutrition, AgTech, genetics, big data, robotics, fuels, chemicals and materials. This is the place where digital and physical technologies converge.

ABLC NEXT is a connected series of 5 conferences on the most important issues in the Bioeconomy right now. These conferences-within-a-conference are:

1. The Advanced Fuels Summit - focused this year on Advanced Biomass Diesel, BioCrude, Advanced Alcohols and Alternatives to gasoline.
2. The Renewable Chemicals & Biomaterials Summit - focused this year on Novel Performance Chemicals and Advanced Packaging.
3. The Sustainable Brands Summit - the technologies deployed by major brands — and their deployment, communications and performance goals.
4. The Advanced Nutrition Summit - advanced products and technologies for human and animal nutrition — more food, better food, and more customer choice.
5. The BioFrontiers Summit - the 30 Most Compelling technologies and solutions ready for development and commercialization from leading technology developers and labs. [READ MORE](#)
